INDEX

AUTHORS

(The names of authors of original articles are printed in CAPITALS; of authors of books reviewed, in roman; and of reviewers, in *italics*.)

ABEL, T. M. 607
Abel, T. M. 463
Adams, W. A. 470
ADES, H. W. 501
Alexander, F. M. 631
Anderson, O. D. 623
Anderson, R. G. 155
ANDREWS, R. C. 87
Angyal, A. 463
ANKENY, H. B. 575
Appel, K. E. 466
Applehof, G. 631
Bakwin, H. 153
Bakwin, R. M. 153
Barker, R. 317
Bartley, H. 313
Benjamin, H. C. 152
BENTLEY, M. 133, 301, 354, 450
Bentley, M. 309, 466, 474
BERGER, C. 395, 603
Bierens de Haan, J. A. 468
Bochner, R. 313
Bogardus, E. S. 468
BONNER, M. R. 262
Boring, E. G. 142
Bowlby, J. 628
BROGDEN, W. J. 78
Brook, C. V. 631
Burling, T. 145
Burtt, H. E. 147
CAIN, T. I. 32
CATTELL, R. B. 195
Chambers, E. G. 628
Clothier, R. C. 151
COAKLEY, J. D. 475
Cole, L. 626
Conklin, E. S. 146
COOK, R. 610
COPPEN, F. M. V. 234
CRISSMAN, P. 449
CULLER, E. 475
Dalbiez, R. 629
DALLENBACH, J. W. 21
DALLENBACH, K. M. 21
Dandy, W. E. 630
Dashiell, J. F. 143, 627
Davis, H. 621, 630
Dembo, T. 317
Dennis, W. 157, 316
DeSilva, H. R. 158
Diethelm, O. 630
DIMMICK, F. L. 137
Dimmick, F. L. 627
Dockeray, F. C. 624
Dolch, E. W. 473
Eaton, T. H. 472
EDWARDS, A. S. 599
English, H. B. 155
FERNBERGER, S. W. 449
Gallagher, R. P. 153
Garrett, H. E. 627
Gellhorn, E. 621
Gesell, A. 157
Gesell, A. 153
GIRDEN, E. 1
Goldstein, K. 465
GORDY, C. B. 181
GÖTHLIN, G. F. 537
GROSS, N. 475
Guenther, L. 158
Hackman, R. C. 628
Halpern, F. 313
HALPERIN, M. H. 395
Halsey, M. 158
Harrower-Erickson, M. R. 313
Hart, H. 158
Hartmann, G. W. 148
Heinlein, C. P. 624
HELLMER, L. A. 408
HENRY, F. M. 161
Herzog, H. 315
Hildreth, G. 156
HOAG, J. E. 105
HOLLAND, B. F. 592
HOLLINGWORTH, H. L. 303
Howells, T. H. 631
HUMM, D. G. 116
Hunt, H. F. 623
Hunt, W. A. 465, 629
HUNTER, W. S. 87
IRWIN, F. W. 451
JACOBSON, E. 433, 559
Jacobson, E. 474
James, W. T. 623
Jenkins, J. G. 149, 158
Johnson, B. 467
JOHNSON, D. M. 604
JOHNSON, H. M. 111, 118, 551
Johnson, H. M. 613
Johnson, W. 464
Johnson, W. B. 631
Junker, B. H. 470
Kantor, J. R. 468
KATZ, A. 274
KELLER, M. 438
Kennedy, F. 309
KINGSLEY, H. L. 575
Klüver, H. 309
Köhler, W. 455
KRYTER, K. D. 501
KUHLMANN, F. 120
Lacey, J. I. 317
LA GRONE, C. W. 592
Landis, C. 460
Lee, I. J. 464
Levine, M. 630
Lewin, K. 317
LÖWI, M. 129
LOWY, K. 475
MacLeod, R. B. 470
Macmillan, J. W. 158
Makrakis, A. 630
Mathewson, S. B. 151
May, M. A. 619
MCFARLAND, R. A. 395
McFarland, R. A. 461
McGeoch, J. A. 455
MCLANE, A. S. 105
Meenes, M. 471
MERRILL, M. A. 453
Miller, J. G. 146

Morgan, J. J. B. 154
Muenzinger, K. F. 143
MURPHY, G. 610
Murray, E. 309
Murray, H. A. 307

Nagge, J. W. 466
Newman, E. B. 630
NIVEN, J. I. 395

Otis, J. L. 153
Overholser, W. 628

Peckham, R. H. 313
Pennington, L. A. 627
PILLSBURY, W. B. 293
Pillsbury, W. B. 627
Poffenberger, A. T. 613
Porterfield, A. L. 469
PRATT, C. C. 134
PRENTICE, W. C. H. 283
PROTHRO, E. T. 66

Raimy, V. 155
RAMSEY, G. V. 217
Rapaport, D. 460
RAUSCH, H. L. 293
Reik, T. 145, 315
ROESSLER, R. L. 78
Rose, A. A. 468
Russell, R. W. 473
Ryan, T. A. 151, 152

Sabine, G. H. 630
SCHLOSBERG, H. 274
Scott, W. D. 151
SCOTT BLAIR, G. W. 234
Sears, R. R. 466
Shirley, M. R. 154
Shuttleworth, F. K. 626
Singh, J. A. L. 316
SOLOMON, R. L. 422
Spriegel, W. R. 151
Stockard, C. R. 623
STRATTON, G. M. 161
Strecker, E. A. 466

Winsor, A. L. 147
WOLFLE, D. 449

Zingg, R. M. 316

SUBJECTS

(References in *italic figures* are to reviews.)

Ability, judgment of group-knowledge, 54-65, 95-99; psychological, in children and aments, 66-77.
Ablation, of brain stem, of cat, 509 ff.
Abnormal, children, vitamin B complex and, 381-394.
Abstraction, in children and aments, 66-77.
Accidents, traffic, *158*.
Accuracy, measurement in drawing, 32-53.
Ace, German, *158*.
Acoustic tracts, differential function of, in hearing, 501-536.
Adaptation, bitter, 21-31.
Adolescence, onset of, in boys, 217-233.
Alternation, brain lesions and, 87-94.
Aments, psychological abilities in, 66-67.
Anoxia, bodily effects of, *461-463;* effect on vision, 395-407.
Apparatus, gustatory, 25; lever-pressing, 275-276; myovoltmeter, for determining muscular tonicity, 561-562; for tonal excitation in cat, 506.
Applied psychologists, 120-129.
Applied Psychology, *147-152, 613-619;* of skill, 181-194.
Art, measurement of accuracy in drawings, 32-53.
Ataxia, general bodily, factors governing, 599-602.
Attitudes, fluctuation of, 195-216.
Audible frequencies, cochlear foci for, 475-500.
Audiograms of cat, with operative technique, 531 ff.
Audition, 475-500.
Autonomic system, regulation through, *621*.

Behavior, science of, *143-145;* of rat, under thermal variation, 408-421.
Bitter-adaptation, 21-31.
Boys, sexual development, 217-233.
Brain, cat, acoustical functions of, 501-536; lesions, 87-94.
Brain lesions, unilateral and bilateral, loss of conditioning under, 514 ff.
Brain-stem, function in acoustic tract, 526-527.
Brigham, Carl Campbell: 1890-1943, 305-306.
Burks, Barbara Stoddard: 1902-1943, 610-612.

Carelessness, discrimination and, 299-300.
Cat, acoustic neural centres of, 501-536.
Caucasians, emotion in, 161-180.
Centres, acoustical, in cat, 501-536.
Character, integration of, 195-216.
Child, exceptional, *156-157;* psychological care, *153-154;* psychology of, *466-467;* psychology, *154-157;* wolf, *157*.
Children, psychological abilities in, 66-77.
Chinese, emotion in, 161-180.
Color-blindness, critique of tests for, 583-591.
Color-theory, three-component, 537-550.
Color-vision, tests for, 583-591.
Comprehending, 129-133.
Conditioned response, 1-20; auditory, in cats, trans-operative retention, 501, 514; retention under unilateral and bilateral lesions, 511 ff.; to subvocal stimuli, 78-86.
Conditioning, 78-86; autonomic, 1 ff.; for determining acoustic functions of brain, 501-536; and free-moving behavior, 247-267; in man, semantic, 438-448.
Conference, War and industrial health, 302.
Conklin, Edmund Smith: 1884-1942, 140-141.
Contraction, in striated muscle, 433-437.
Correlation, Humm's, 111-120.
Cortex, of cat, acoustic areas of, 501-536.
Curve, of forgetting, 105-110.

Development, physical and behavioral, of boys, 223-233; physical, of boys, 217-233; sexual, of boys, 217-233.
Dexterity, handedness, 181-194.
Differences, behavior in white rat, 408-421; and similarities, racial, ethnic and national, 161-180.
Distribution, cochlear, for tones, 475-500.
Dog, response-mechanism in, 1-20.
Double-alternation, in rat-learning, 274-282.

Downey, June E., Library fund, 499.
Drawings, measurement of accuracy in, 32-53.
Drives, toward war, *142-143.*
Drug state, conditioning in, 1 ff.

Eastern Psychological Association, annual meeting of, 607-609.
Education, philosophy of, *472-473.*
Egocentricity, in children and aments, 66-77.
Emotion, changes in speech-pattern and, 262-273; of Chinese, Japanese and Whites, 161-180; excited, response-mechanisms in, 1-20; physiological indicators of, among races, 161-180; and thinking, 100-104.
Emotions, memory and, *460-461.*
Employment, *147-148.*
Endocrines, and behavior, *623.*
Erratum, 133.
Estimation, firmness of soft materials, 234-246.
Evolution, child mind, *156-157.*
Experimental Psychologists, 39th meeting of, 499.
Extinction, and frustration, 247-261.

Fatigue, *149-151;* critique of, definitions and theories of, 551-558; effect of vitamin B complex on, 381-394.
Feral man, *316-317.*
Ferree, Clarence Errol: 1877-1942, 137-140.
Fertility, in rats, effect of temperature upon, 412-413.
Firmness, in soft materials, 234-246.
Floy, Michael, Jr., diary of, *301-302.*
Forgetting, 105-110.
Frequency-map, of guinea-pig cochlea, 475-500.
Frustration, at barriers, in learning, 247-261; in young children, 317-318.
Fundamental colors, in Helmholtz, Hering, and Göthlin theories, 537-550.

Generalization, mediated, 438-448.
Genius, *467-468.*
Gestalt theory, applied to estimations of firmness and softness, 237-246.
Goal-searching, age and, 580-582; instruction and, 579-581; and other inquisitive functions, 575-579.
Group-knowledge, ability to judge, 54-65; 95-99.
Guide-book, job seeker's, *153.*
Guinea-pig, 475-500.

Handedness, and peripheral vision, 592-598.
Happiness, *158.*
Hearing, guinea-pig, cochlear functions for, 475-500.
Heredity and environment, *157.*
Homosexual behavior, in boys, 229-233.
Human nature, color and, *470-471.*
Humm, D. G., non-linear product-moment correlation, 111-120.
Hypnosis, learning under, 289-291.

Illusion, optical, from polished surfaces, 604-607.
Individual differences, in speech under fear, 262-273.
Industrial health, conference on, 302.
Industrial Psychology, *148-150.*
Infancy, psychological care in, *153-154.*
Inheritance, racial, 161-180.
Inhibition, Köhler-Restorff, 293-298; neural, underlying color-vision, 537-550; retroactive, *630.*
Inquisitive, definition of, 357; functions, table of, 361-364.
Integration, of character and personality, 195-216.
Intelligence, and knowledge, 98-99; and peripheral vision, 592-598.

Japanese, emotion in, 161-180.
Judgment, of group-knowledge, 54-65; 95-99.

Knowledge, group, 54-65, 95-99.
Köhler-Restorff, inhibition phenomenon, 293-298.

Language, habits, *464-465.*
Latency, and learning, in jumping response, 422-432.
Learning, barrier-frustration and extinction in, 247-261; human, *455-460;* intentional and incidental compared, 285-287; latency of response as a measure of, 422-432; of radiotelegraphic code, 319-353; response-mechanism in, 1-20; retroactive inhibition and, 283-292.
Lever-pressing, in white rat, 274-282.
License, to practice psychology, 121.
Limen, tonal, intensive, in cat, 509 ff.
Localization, cochlear, for tones, 475-500.

Man, masochism in, *145-146.*
Martin, Lillien Jane: 1851-1943, 453-454.

Masochism, *145-146, 315-316.*
Maze-learning, rat, 422-432; dependence upon temperature, 408-421.
McGeoch, John A.; 1897-1942, 134-136
Measurement, in drawing, 32-53.
Mechanism, response, 1-20; visual, *309-312.*
Meetings, Eastern Psychological Association, 607-609; Midwestern Psychological Association, 449-450; 39th of Society of Experimental Psychologists, 449.
Memory, drawing from, 52; and emotions, *460-461.*
Method, for determining cochlear foci for tonal analysis, 475-500; extirpation of tracts and centres, in cat's brain, 501-536; measuring drawings, 36 ff.
Midwestern Psychological Association, meeting, 449-450.
Mind, and body, interrelationship of, *309;* child, *156-157;* human, and therapy, *466.*
Motion study, 181-194.
Motivation, in learning, 283-292; thought, 100-104.
Muscle, striated, tonus in, 433-437.
Muscular tension, and smoking, 559-574.

Nature, human, *465.*
Necrology, Carl Campbell Brigham, 305-306; Barbara Stoddard Burks, 610-612; Edmund Smith Conklin, 140-141; Clarence Errol Ferree, 137-140; Lillien Jane Martin, 453-454; John A. McGeoch, 134-136; Rudolph Pintner, 303-305; Edwin Burket Twitmyer, 451-453.
Negro, *470-472.*
Nervous centers, acoustic, in cat, 501-536.
Nonsense-learning, isolation *vs.* massing in, 293-298.
Numerology, index, 551-558.

Paralysis, muscular, learning under, 1 ff.
Perception, in peripheral vision, 592-598.
Personality, and disorders, *628;* negro, *470-472;* science of, *463-464;* and society, *469-470;* studies in, *307-308;* tests of, 195-216.
Personnel management, *151-152.*
Philosophy, a new, *630.*
Pintner, Rudolph: 1884-1942, 303-305.
Potentials, cochlear, guinea pig, 475-500.
Proprioceptive component, in hearing, 527.
Psychoanalysis, and Freud, *629.*
Psychologists, classification and licensing, 120-129.
Psychology, adolescent, *626;* animal, *468;* experimental, *627;* general, *624-627;* social, fundamentals, *468-469.*
Psychopathology, and human nature, *465.*
Psychotherapy, *630.*
Puberty, marks of, in boys, 217-233.

Qualities, taste, 21-31.

Racial differences, cultural and heritable, 161-180.
Radiotelegraphy, learning to send and receive in code, 319-353.
Rat, barrier-frustration and extinction in learning in, 247-261; double alternation and, 87-94; effect of temperature on behavior, 408-421; lever-pressing in, 274-282; maze-learning, dependence upon latency, 422-432.
Reaction, physiological, racial and national difference in, 161-180.
Reading, ability, 592-598; teaching primary, *473-474.*
Regression, in young children, 317-318.
Reinforcement, gradients of, 247-261.
Relaxation, 433-437; *474;* and cigarette smoking, 559-574.
Research, creative factors in, *469-470.*
Resolving power, anoxia and, 395-407.
Response, galvanic skin, and generalization, 438-448; latency of, as a measure of learning, 422-432.
Retention, 105-110; theories of, 283-292.
Retroactive inhibition and learning, 283-292.
Rorschach test, *313-315.*

Sanity, the self in, *631.*
Science, of behavior, *143-145;* cultural factors in, *469-470.*
Semantics, *464-465.*
Sensitivity, in cochlear regions, 475-500; effects of bitter adaptation on, 21-31; visual, to color, 583-591.
Sentiments, fluctuation of, 195-216.
Sex, *315-316;* development, in boys, 217-233.
Sexual outlets, in boys, 217-233.
Skill, in motor performance, 181-194.
Smoking, and muscular tension, 559-574.
Social psychology of peace and war, *619-621.*
Speech-pattern, analyses of, 262-273; under emotional tension, 262-273.
Statistics, 111-120; elementary, *628.*
Steadiness, of body at rest, 599-602.

Stimuli, subvocal, conditioned differentiation and, 78-86.
Stoelting, Christian H., 450.
Subnormal, amentia, 66-77.

Taste, qualities, 21-31.
Teaching, radiotelegraphic code, 319-353.
Temperament, 195-216.
Temperature, and behavior of rat, 408-421; and inheritance, in rat, 408-421.
Test, Rorschach, *313-315.*
Tests, of aptitude, for radiotelegraphy, 340-353; color, comparison of four, 583-591; drawing, 33, 35; employment, *152-153;* of fluctuation in attitude, etc., 195-216.
Textbooks, child psychology, *154-155;* psychology, *143-145.*
Thinking, conditions and products of, 366-376; definition of, 379-380; elaborative, 356-357; experimental research upon, 363-366; place among psychological functions, 354-380.
Thought-motivation, dynamics of, 100-104.
Threshold-response, of cochlea, 479.
Time-variations, required for simple tasks, 181-194.
Tonal localization, on cochlea, 475-500.
Tonus, measurement of, 433-437.
Twitmyer, Edwin Burket: 1873-1943, 451-453.

Unconsciousness, *146-147.*

Variations, in time of simple task, 181-194.
Vasoconstriction, conditioning of, 78-86.
Vision, *313;* color, theories of, 537-550; mechanisms of, *309-312;* peripheral, 592-598.
Visual acuity, and anoxia, 395-407; criticism of Low, 603-604; landolt ring and, 603-604.
Vitamin B complex and fatigue, 381-394.

War, drives toward, *142-143.*
Wolf-children, *316-317.*
